JANUARY 15th, 2019: DEADLINE TO RECEIVE FULL APPLICATION

POSITION: BOVINE POPULATION MEDICINE (DAIRY)

NUMBER OF POSITIONS AVAILABLE: 1

DESCRIPTION:
This residency is a 3-year (36 months), full time, graduate program of 108 credits obtained mostly from clinical training. A specialized study diploma (D.E.S.) is awarded upon completion of the program. The intensive clinical training focusses mainly but not only on dairy population medicine, nutrition and data analysis. The resident will mainly participate in dairy herd health visits with the ambulatory clinic. The resident is required to complete a clinical research project and participate in the daily supervision of undergraduate students in bovine population medicine and ambulatory clinic. He (she) may also be asked to supervise the teaching laboratories of junior students. Every four weeks, the resident will also participate in night, weekend and holiday emergency duty. Residents are eligible for 3 weeks of holidays which will be determined by the consultation committee and the section supervisor. If the resident is not on emergency duty, they are eligible for the standard set holidays during the year. Any professional activities performed outside the residency program must be declared to the Associate Dean for clinical training and continuing education. The residency program may be combined with a master (M.Sc.) or a doctoral (Ph.D.) degree program. Applicants seeking a residency-Ph.D. program must have completed a master (M.Sc.) program.
