Dear Elizabeth Lowenger,

We are a mobile veterinary service based in the GTA (www.tomobilevet.com) and we are interested in hiring some of your new grads for an internship program here at our service. The details for this position are as follows:

Candidates will learn and practice the full range of veterinary/technical skills as well as client-focused communication skills by working along-side our experienced vets. Skills learned in this rigorous internship program will be instrumental to our interns becoming competent, proficient, and well-rounded veterinarians. These skills would also be transferable to any clinical or veterinary setting.

The internship is a part-time, flexible program that calls for a 2-days-a-week commitment. The duration of this renewable contract is 6 months. At the end of the 6-month period comes a formal review/evaluation of our intern's skills, and potentially a job offer if we feel that the intern is ready.
