

Love DAIRY cows? So do we! If you're looking for a career in large animal practice come and visit the Beausejour Animal Hospital. We are looking for the next great dairy practitioner, but if you're not quite ready to plunge into single species practice yet, we can accommodate you with opportunities in beef, equine and small animal. We are an eight veterinarian practice and we all have our own interests, therefore our range of mentorship is equally diverse.

The veterinarian we are searching for is knowledgeable and efficient, a team player who goes the extra mile for clients. We are committed to best practice medicine and want a veterinarian who strives to continually improve their skills and knowledge. A thorough understanding of the dairy industry, an ability to perform DHI analysis, as well as efficiency in bovine reproductive ultrasonography would be an asset.

We are equipped with in house-lab, digital radiology, dentistry equipment, tonovet, easi-scan ultrasounds and all necessary equipment. We also provide in house milk culturing and Dairy Comp DHI analysis to our clients. We supply a truck with porta vet box for on farm services. The position is permanent and offers membership dues, health benefits, CE allowance, and retirement savings plan.

Beausejour is an ideal place to live and raise a family. We are located half way between Winnipeg and the Whiteshell cottage country. Our practice area is perfect for anyone who enjoys outdoor living, cottage life, hobby farming, while still having the city close by. There is very high salary too cost of living ratio in the area, so your salary goes a long way. The area is ideal for the hunting, fishing, golfing, and ATV enthusiast. Our town has an extremely active atmosphere with many recreational sports leagues of all types.

Please contact Dr. Eric Maguet, Dr. Claus Leppelmann, or Dr. Kurtis Swirsky for more information at 204-268-2177. Resumes can be emailed to [em@beausejourvet.ca](mailto:em@beausejourvet.ca)
