The Atlantic Veterinary College has an open position for a Small Animal Rotating Post Graduate Diploma Student (Intern). This is a year-long program that offers advanced training and experience in areas of emergency medicine, internal medicine, surgery, cardiology, radiology and anesthesia. If you have been considering further advancing your training in a formal program to hone your skills in emergency, medicine and surgery or if you are considering specialty training and practice, it is never too late for an internship program. For more information please contact Christine Savidge (csavidge@upei.ca).
