Summer Veterinary student Opportunity at Vivocore Resources Inc.

The Opportunity
Looking for a summer veterinary student to work in our busy contract research organization. This role will involve assisting our current veterinary staff in our veterinary care and research program. Duties include assessment of animals, administration of medications, sample collections, assistance with anesthesia, dental procedures and surgeries in our dog and cat population as well as some exposure to working with rodents. This is a hands on role that will allow veterinary students to enhance their clinical skills.
Opportunity for continued weekend work during the fall/winter is also a possibility.

About Us
Vivocore Resources Inc is a dynamic contract research organization that specializes in behavioural assessments involving both companion and research animals, and assisting clients in their development of new therapeutics.
The Company provides a friendly and team-oriented work atmosphere. We are located in Fergus, Ontario (approx 30 minutes North/East of Guelph).

If interested, please submit a cover letter and resume to: shawnp@vivocore.com.
