Congratulations

Corinne Schut, Dr. Brandon Lillie’s current summer student has received an OMAFRA HQP Scholarship for $17300 per year for 2 years for her MSc studies that are starting in September.

Ian Barker recently gave a series of continuing education presentations at the 2016 Nordic Wildlife and Zoo Veterinary Conference in Norway. Flanking Barker (centre) are (L) Mads Bertelsen, DVSc 2003, Veterinarian at Copenhagen Zoo, Denmark and (R) Rolf-Arne Ølberg, DVSc 2004, Director of Animal Care at Kristiansand Dyrepark, Norway. On the left is Kate Perrin, a British student of Bertelsen’s, who visited the department to work with Dale Smith in fall 2015, and on the right, Adriana Nielsen, a Dane who completed her OVC-Toronto Zoo residency in 2015, and is now a veterinarian at the Wadi Al Safa Wildlife Centre in Dubai.

Dear Colleagues

Welcome summer students (lots!!), new grad students (a few) and other new personnel.

Please remember to join the department for pizza lunch on May 12th for an introduction. If your advisor cannot be there show up anyway and say a few words about what you will be doing in the department. We look forward to learning who you are and what you will be doing. All new department members, including summer students, will have their picture taken to put up on the Pathobiology wall of fame.

Our primary goal is to foster a learning experience for all. Our primary immediate concern is for the safety of any new individuals who will be in the laboratory. You must have completed the three safety components listed below before you can work in the labs. If you are unclear about completion of these tasks ask the nearest Pathobiology technician asap.

Cheers John
