CONGRATULATIONS

Dozens of University of Guelph research projects will be supported by a new $13-million investment from the Natural Sciences and Engineering Research Council (NSERC). Pathobiology researchers include: John Barta, Claire Jardine, Stefan Keller, John Lumsden, Janet MacInnes, Bonnie Mallard, Leonardo Susta, and awards to pathobiology student, Jamie Rothenburger. >> OVC Bulletin

Congratulations to Drs. Nemeth, Sharif, Susta, Weese and Lumsden on their recent OMAFRA funding.

Dr. Byram Bridle received an additional instalment from BioCanRx of 320k for clinical trials in companion animals.

Congratulations to the recipients of the 2016 Convocation Awards

- Dr. Darren Wood - K. M Bhatnagar Memorial Humanitarian Award for a faculty member who best portrays the attributes of the late Dr. Kumar Bhatnager (OVC 1968), by being active in University affairs and supporting students outside the classroom.

- Dr. Andrew Peregrine - Ontario Veterinary College “Year 68” Award for Teaching Excellence for exemplary teaching, support and care for students over their four years at OVC.

In June 2016, Dr. Patricia Turner was elected to a 3-year term on the Board of Directors for the Canadian Council on Animal Care. The Canadian Council on Animal Care (CCAC) is the national peer-review organization responsible for setting, maintaining, and overseeing the implementation of high standards for animal ethics and care in science throughout Canada.

Iman Mehdizadeh Gohari, PhD Candidate with Drs. John Prescott and Patrick Boerlin was awarded the Best Poster Presentation at the 15th annual meeting of the Canadian Animal Health Laboratories Network (CAHLN) at the Atlantic Veterinary College in Charlottetown in early June. His poster title was “Comparative genomic and cgMLST analysis of netF-positive clostridium perfringes isolates from foal and canine necrotizing enteritis”.

Paige Vroom, MSc candidate with John Lumsden, received the best student poster presentation (Parasitology, Immunology and Environment section) at the recent Canadian Zoological Society meeting. Her poster title was “Regeneration in Corallimorpharia”.

Mei-Hua Hwang, MSc student with Dr. Stefan Keller, has received an NSERC scholarship.

WELCOME to Bryan Potter, Operations Manager, who will work with Pathobiology and Biomedical Sciences. He is located in 3832 and will be in his Pathobiology office in the afternoon.

NEWS and MEDIA

Dr. Bonnie Mallard was featured in the first University of Guelph’s Catalyst Centre Newsletter, Created at Guelph. A newsletter dedicated to sharing the compelling research at Guelph that is making a global impact. >> newsletter  >> article

Office 365 Training

Be prepared, sign up for some hands-on training before or after the migration? Register today!

University of Guelph (Staff, Faculty and Grad Students) will be migrated from Zimbra to Office 365 over the weekend of...

Office 365 is a collection of cloud based services that work together to increase productivity through collaboration. Office 365 includes a web interface for email, calendaring, contacts and tasks that is very similar to the web version of Gryph Mail (Zimbra) you currently use.

In addition to 50GB of email storage, you will also have unlimited, secure cloud storage in OneDrive for all your files! Find out more on the Office 365 Features page.

SUMMER TIME

Dear Colleagues

Please check the first four research posters that Nathalie and faculty have completed. They are now posted on the first floor near the Second Cup. Please also note that there is a monitor that is waiting patiently for stories, research summaries, etc. Please work with Nathalie to generate these. Be imaginative so that many more topics are available when the students return in the fall.

The second Pathobiology Ice Cream Day is July 12, reminders will come nearer the date. I hope that the temperature outside is warmer than the ice cream this time. All in OVC are invited.

Please wring the most from the summer before fall hits again. Place importance on your relaxation/rest and research/learning (because it’s already July)! In addition to anything else that you have prioritized.

Cheers John

Call of OVMA 2017 'Lunch With' speakers

Attention OVC faculty and clinicians, we are looking for your input for the popular “Lunch With...” sessions presented by the OVC in partnership with the 2017 Ontario Veterinary Medical Association (OVMA) Conference and Trade Show. Two days of Lunch with sessions are available: Friday, January 27 and Saturday, January 28, 2017 from 12:00 – 1:00 p.m. each day. >> more details

While their account is being migrated, users should not create or send any notification immediately before and after their migration weekend. Each individual will receive a migration notification immediately before and after their migration weekend. Users will have limited access to email over the migration weekend. Each individual will receive a notification immediately before and after their mailbox is migrated. While their account is being migrated, users should not create or send any email messages.

Guest Network Access

New Self-Serve Registration Process for Guest Network Access at U of G

There is a new process for issuing guest network access on campus. Starting June 18th, guests can complete a simple self-registration process and will require the approval of a sponsor to complete this process. Any U of G faculty or staff member can be a sponsor.

1) Connect to the uog-guest wireless network and open a web browser.
2) On the guest portal, click on the “Register” button to start the self-registration process.
3) Please provide your main email address and choose a password.
4) Specify the name and email address of your sponsor (typically the U of G staff or faculty member you are here to see) who can approve your guest access, then click on “Register”.

ICE CREAM DAYS
3 pm on July 12 and Aug 16
