1 Course Details

1.1 Calendar Description

This is the first part of the two-semester course NEUR*4401/2. In this course, students will conduct independent research of a current topic in any of the biomedical neurosciences: (such as anatomy, physiology, pharmacology, toxicology, molecular biology, biochemistry). Students work under the supervision of individual faculty. Faculty consent must be obtained prior to being admitted into the course by the course coordinator. This is a two-semester course offered over consecutive semesters. When you register for this course you must select NEUR*4401 in the first semester and NEUR*4402 in the second semester. A grade will not be assigned in NEUR*4401 until NEUR*4402 has been completed.

Pre-Requisites: 14.00 credits
Restrictions: BIOM*4510, BIOM*4521, BIOM*4522, NEUR*4450. Instructor consent required. Enrolment restricted to BSC.NEUR major and minor.

1.2 Course Description

Objectives: This research course is designed to expose students to neuroscience research where information is created, interpreted and integrated with current knowledge, and to teach effective skills for communicating scientific information orally and in writing.

It is important to realize that this course is at the undergraduate level. The research project should be well-defined and have a reasonable likelihood of success. This course is not mini-Masters and certainly should not involve a rigorous series of experiments.

1.3 Timetable

Timetable is subject to change. Please see WebAdvisor for the latest information.

1.4 Final Exam
Exam time and location is subject to change. Please see WebAdvisor for the latest information.

2 Instructional Support

2.1 Instructional Support Team

Course Co-ordinator: Craig Bailey Dr.  
Email: baileyc@uoguelph.ca  
Telephone: +1-519-824-4120 x54954  
Office: OVCE 2602

Program Advisor: Kimberly Best  
Email: kbestb@uoguelph.ca  
Telephone: +1-519-824-4120 x54918  
Office: OVCE 2633

3 Learning Resources

4 Learning Outcomes

This course is designed to give the student a realistic view of research by providing an opportunity for “hands-on” research.

4.1 Course Learning Outcomes

By the end of this course, you should be able to:

1. Develop an appreciation for research.
2. Improve library skills by researching the literature on a specific topic.
3. Develop awareness of current research techniques.
4. Develop the techniques and attitudes of critical thinking through evaluation of research data.
5. Teach problem solving.
6. Improve written and oral communications skills.

5 Teaching and Learning Activities

A CHECK-LIST FOR STUDENTS

1. When the semester begins, students should contact their supervisor and...
begin working on their laboratory project according to his/her directions.

2. Maintain regular contact with your supervisor throughout the semester, to discuss your progress. Many supervisors arrange a regular weekly meeting with students.

3. You need to discuss with your supervisor the points raised in the Seminar Questionnaire. This form needs to be returned to Kim Best (Rm 2633, OVC; kbestb@uoguelph.ca) before the deadline date to facilitate planning the seminar days. If this questionnaire is not received by the date in the deadline dates, 5 marks will be deducted from your seminar.

4. You will prepare your seminar slides/presentation using PowerPoint and upload this file to the appropriate dropbox folder on the CourseLink website for this course. The due date for uploading is 8 am the day of your presentation. If files are not received by this deadline, 5% will be deducted from your final grade.

5. Preview and practice your completed PowerPoint presentation with your supervisor.

6. You are expected to participate and critique your colleagues’ presentations by completing five peer evaluations during the seminar week. Evaluation forms will be provided during each seminar session. For full marks, these forms must have your name clearly printed on the bottom and be submitted to the daily seminar coordinator or to Kim Best. [Note: This activity will not be required during the Summer 2021 semester].

7. We ask that you complete an online course evaluation during the last 2 weeks of classes.

8. A preliminary draft of your written project report should be submitted to your supervisor for general comments and feedback before the final copy is submitted. Allow time for this to occur, in consultation with your supervisor. The final written project report is due to your supervisor on the specified day indicated in semester deadlines (see Semester Deadlines – use date as a guideline).

---

6 Assessments

Students will not be penalized if a project fails due to circumstances beyond their control. In such cases however, students should give a critical appraisal of the problem(s) encountered, and the emphasis of the project may be re-directed to improving the methodology.
6.1 Assessment Details

Interim Report (25%)

12.5% seminar and 12.5% written report (1 reviewer)

Students taking NEUR*4401/2 are required to provide an interim report for the first semester on their progress to-date. This report consists of two components: (1) an oral presentation in the form of a 10-minute PowerPoint presentation followed by a 5-minute question period (on one of the regularly scheduled seminar days for that semester), and (2) a written report in the form of a 6-page double-spaced report to be provided to the supervisor on the appropriate semester deadline date. Please note that PowerPoint “presenter view” will not be available for the oral presentation. The primary purpose of the interim report is to identify the objectives/hypothesis being tested in the research project, the research protocol for the project, and any progress to date. The formal seminar given in the second semester of the course (NEUR*4402) concentrates more on the results and discussion of the overall project.

Evaluation of your colleagues’ seminars (5 in total) (2.5%)

Students are required to assist with the evaluation of their colleagues’ presentations and to participate in the question periods. Each student must submit a minimum of 5 peer evaluations each semester. These evaluations must have your name clearly printed on the bottom of the page to receive the full marks. The presenter’s seminar mark will be calculated as the average of all faculty scores submitted, however, presenters and supervisors will receive a copy of all faculty + peer evaluations, in order to evaluate all feedback provided for the presentation. Students are encouraged to review this feedback with their supervisor.

7 Course Statements
7.1 Faculty and Student Commitments

Neuroscience minors may require one of the University’s double-weighted research courses for their major program. The '0-6' and '0-12' hr/week labels on the courses should be regarded as the minimum time commitment for students. In other courses, students are expected to work on course material after lectures and laboratories are finished. Research course students can expect that they will have to spend more than the listed time/week to complete their research work. Students may have to deliberately limit the time that they devote to these courses if they find the work particularly interesting or demanding. If a student feels that a problem is arising, he/she must talk to the supervisor about either becoming more efficient, or limiting the workload.

If a student wishes to perform their research off-campus, they must secure a co-supervisor who is a faculty member of the University of Guelph.

If a student has questions or concerns regarding any aspect of the research or academic aspects of this course, they are encouraged to talk with the course coordinator.

7.2 ‘Animal Utilization Protocol’ Approval

Some projects may require working with live animals. Faculty supervisors are responsible for obtaining the appropriate Animal Utilization Protocols to cover the work being done by Research project students under their supervision. Students should be aware of these protocols and understand their purpose. Discuss these with your supervisor.

7.3 Course Evaluation

Course evaluations will be turned on the last 2 weeks of classes - https://courseeval.uoguelph.ca/CEVALLOGIN.php

If you see ways that the course could be improved, please say so on the evaluation form. Your feedback is vital for us to assess the impact of the research courses and to fine tune the way we operate. This feedback will be provided to the course coordinator ONLY after the final grades have been submitted to the Registrar’s Office and will be used to make improvements to the course.
8 University Statements

8.1 Email Communication

As per university regulations, all students are required to check their e-mail account regularly: e-mail is the official route of communication between the University and its students.

8.2 When You Cannot Meet a Course Requirement

When you find yourself unable to meet an in-course requirement because of illness or compassionate reasons please advise the course instructor (or designated person, such as a teaching assistant) in writing, with your name, id#, and e-mail contact. The grounds for Academic Consideration are detailed in the Undergraduate and Graduate Calendars.

Undergraduate Calendar - Academic Consideration and Appeals
https://www.uoguelph.ca/registrar/calendars/undergraduate/current/c08/c08-ac.shtml

Graduate Calendar - Grounds for Academic Consideration
https://www.uoguelph.ca/registrar/calendars/graduate/current/genreg/index.shtml

Associate Diploma Calendar - Academic Consideration, Appeals and Petitions
https://www.uoguelph.ca/registrar/calendars/diploma/current/index.shtml

8.3 Drop Date

Students will have until the last day of classes to drop courses without academic penalty. The deadline to drop two-semester courses will be the last day of classes in the second semester. This applies to all students (undergraduate, graduate and diploma) except for Doctor of Veterinary Medicine and Associate Diploma in Veterinary Technology (conventional and alternative delivery) students. The regulations and procedures for course registration are available in their respective Academic Calendars.

Undergraduate Calendar - Dropping Courses
https://www.uoguelph.ca/registrar/calendars/undergraduate/current/c08/c08-drop.shtml

Graduate Calendar - Registration Changes
https://www.uoguelph.ca/registrar/calendars/graduate/current/genreg/genreg-regregchg.shtml

Associate Diploma Calendar - Dropping Courses
https://www.uoguelph.ca/registrar/calendars/diploma/current/c08/c08-drop.shtml

8.4 Copies of Out-of-class Assignments

Keep paper and/or other reliable back-up copies of all out-of-class assignments: you may be asked to resubmit work at any time.
8.5 Accessibility

The University promotes the full participation of students who experience disabilities in their academic programs. To that end, the provision of academic accommodation is a shared responsibility between the University and the student.

When accommodations are needed, the student is required to first register with Student Accessibility Services (SAS). Documentation to substantiate the existence of a disability is required; however, interim accommodations may be possible while that process is underway.

Accommodations are available for both permanent and temporary disabilities. It should be noted that common illnesses such as a cold or the flu do not constitute a disability.

Use of the SAS Exam Centre requires students to make a booking at least 14 days in advance, and no later than November 1 (fall), March 1 (winter) or July 1 (summer). Similarly, new or changed accommodations for online quizzes, tests and exams must be approved at least a week ahead of time.

For Guelph students, information can be found on the SAS website
https://www.uoguelph.ca/sas

For Ridgetown students, information can be found on the Ridgetown SAS website
https://www.ridgetownc.com/services/accessibilityservices.cfm

8.6 Academic Integrity

The University of Guelph is committed to upholding the highest standards of academic integrity, and it is the responsibility of all members of the University community-faculty, staff, and students-to be aware of what constitutes academic misconduct and to do as much as possible to prevent academic offences from occurring. University of Guelph students have the responsibility of abiding by the University’s policy on academic misconduct regardless of their location of study; faculty, staff, and students have the responsibility of supporting an environment that encourages academic integrity. Students need to remain aware that instructors have access to and the right to use electronic and other means of detection.

Please note: Whether or not a student intended to commit academic misconduct is not relevant for a finding of guilt. Hurried or careless submission of assignments does not excuse students from responsibility for verifying the academic integrity of their work before submitting it. Students who are in any doubt as to whether an action on their part could be construed as an academic offence should consult with a faculty member or faculty advisor.

Undergraduate Calendar - Academic Misconduct

Graduate Calendar - Academic Misconduct
https://www.uoguelph.ca/registrar/calendars/graduate/current/genreg/index.shtml
8.7 Recording of Materials

Presentations that are made in relation to course work - including lectures - cannot be recorded or copied without the permission of the presenter, whether the instructor, a student, or guest lecturer. Material recorded with permission is restricted to use for that course unless further permission is granted.

8.8 Resources

The Academic Calendars are the source of information about the University of Guelph's procedures, policies, and regulations that apply to undergraduate, graduate, and diploma programs.

Academic Calendars
https://www.uoguelph.ca/academics/calendars

8.9 Disclaimer

Please note that the ongoing COVID-19 pandemic may necessitate a revision of the format of course offerings, changes in classroom protocols, and academic schedules. Any such changes will be announced via CourseLink and/or class email.

This includes on-campus scheduling during the semester, mid-terms and final examination schedules. All University-wide decisions will be posted on the COVID-19 website (https://news.uoguelph.ca/2019-novel-coronavirus-information/) and circulated by email.

8.10 Illness

Medical notes will not normally be required for singular instances of academic consideration, although students may be required to provide supporting documentation for multiple missed assessments or when involving a large part of a course (e.g., final exam or major assignment).

8.11 Covid-19 Safety Protocols

For information on current safety protocols, follow these links:

- https://news.uoguelph.ca/return-to-campuses/how-u-of-g-is-preparing-for-your-safe-return/
- https://news.uoguelph.ca/return-to-campuses/spaces/#ClassroomSpaces

Please note, these guidelines may be updated as required in response to evolving University, Public Health or government directives.
