12. **The Fulbright Canada Research Chairs Program**, which supports the exchange of
scholars between and among Canadian and American universities in targeted areas, has
grown considerably in recent years. Given that the application deadline for US scholars,
which is **August 1st**, is out of synch with the academic calendar, the deadline has been
extended through to **September 12th, 2018**.
Our primary goal is to determine whether changing the deadline will assist us in ensuring
that information about the Fulbright Canada Research Chairs program reaches more high
profile candidates.
We would be grateful if you could assist us with this process and use this window to share
information about your Chairs with your colleagues, encouraging them to reach out to their
network in the United States. This may very well attract additional candidates, expanding
the overall pool and assisting us as we attempt to fine tune the recruitment process.
