- o Footcare Products

• Copper Sulphate

• Zinc Sulphate

• Formalin (38% Formaldehyde)

• Liquid Foot Care (White Socks)

• Biotin

Dairylac – Calcium Soap

Dairylac is a Rumen Protected Fat combining palm fatty acids with calcium. Dairylac can also be referred to as a Calcium Soap.

Nutritional Benefits

High yielding Dairy Cows will milk 'off their backs' during early lactation. During this period poor appetite may also reduce dry matter Intake. These factors result in a negative energy balance which can affect milk yields, fertility and may cause Acetonemia (Ketosis). Ketosis may be sub clinical and thus barely noticeable, even so, it can further reduce appetite. Thus creating a vicious circle.

Dairylac will supply a concentrated source of energy that is digested with an efficiency of over 95%. Because the energy in Dairylac is protected, it does not interfere with rumen function, unlike some other non protected oils and fats.

Animal Benefits

With almost three times as much energy as cereals, Dairylac will help get freshly calved cows back into positive energy balance and ensure that peak yields are achieved during this vital period, Dairylac is protected so it will not interfere with normal rumen function.

Calcium Soaps

Calcium Soaps are generally the most widely used protected fat. They are sold under a number of brand names. See below the typical chemical properties and typical fatty acid profiles of Dairylac.

Dairylac

Dairylac	Typical Chemical Properties:
Fat	85%
Ash	12% (at 850°c)
Calcium	8%
Moisture	3%

Dairylac	Typical Fatty Acid Profile
(% of total fatty acids)	
C14:0	1.9
C16:0	52.2
C18:0	5.7
C18:1	39.3
C18:2	10.7
Metabolised Energy	34 MJ/kg DM

Feed Rates

The recommended quantities vary according to the characteristics of the ration, the time of lactation period and the production level.

Dairy Cows

Post us your Mineral Spec

When was the last time you checked that the price you are paying is still competitive?

Send us your mineral specification, which can be found on the bag label, and we will offer you a like-for-like quote.

We supply all herd sizes and our customer base covers the entire U.K.

It's not just for cows you know - we cater for Dairy, Beef, Sheep and Goats.

Click on the envelope to send us your details and we will send you a S.A.E.

Have we got your correct email address?

Keep us informed so that we can make sure you've got the most up to date information and offers.

Well, you wouldn't want to miss out!

Click on the envelope below to contact us.
