Start your veterinary career off right with Banfield Pet Hospital®!

You're on the home stretch towards graduation and there's no better time than now to consider all of your career options. Founded in 1955 in Portland, Oregon, Banfield Pet Hospital has grown to over 880 hospitals nationwide and is the largest small animal preventive care practice in the world. All of our hospitals provide state-of-the-art equipment, including: digital radiography, high speed dental units, paperless medical records, fluid pumps, in-house laboratory, and much more!

As a new graduate, here are just a few advantages of joining Banfield:

- **Formal 12 week Mentorship program**
  Banfield sets you up for success by providing a supportive environment to all new graduates where you can perfect your clinical skills while under the guidance of experienced, caring coaches and mentors—all this while earning a full salary and benefits!

- **Preventive Care focus**
  Banfield delivers preventive care through packages called Optimum Wellness Plans®. Each plan provides comprehensive and essential care pets need to maintain optimum health.

- **Work/Life balance**
  As a full-time Banfield associate, you'll enjoy a healthy work/life balance, including: a competitive salary with production eligibility, full benefits package, generous paid time off, 401K plan, free Optimum Wellness Plans for your pets, an associate assistance program, and continuing education.

- **Development/Advancement opportunities**
  From associate veterinarian to chief of staff, doctors have ample room to grow professionally while continuing to enjoy a healthy work/life balance.
