Delaney Veterinary Services (DVS) has a 2022 Internship position available. DVS is a primary and referral equine facility serving the greater Edmonton area in central Alberta. We currently provide referral services (surgery / internal medicine / reproduction) to Alberta, Saskatchewan and British Columbia. We have a strong team of veterinarians including experienced general practitioners and board-certified surgeon. We have full time support staff as well as many part-time staff, students, externs and volunteers.

Our practice provides comprehensive services including surgery (elective and emergency), lameness, medicine, advanced reproductive techniques, general health, dentistry, chiropractic, acupuncture, rehabilitation and advanced imaging.

We are a large practice that offers the opportunity to practice high quality medicine with the luxury of the cooperation and consultation of highly specialized and regarded veterinarians in their fields.

This internship program will allow you to pursue all aspects of equine practice in an intense case load environment under the guidance of experienced equine veterinarians. Duties will include in-clinic patient care, surgical and/or anesthesia assistance, all aspects of ambulatory practice including lameness work-ups, dental, herd health, reproduction, imaging, ultrasonography and rehabilitation. Emergency call duties are divided amongst the doctors in the clinic.

Our goal is to enhance equine practice by providing associates access to a wide variety of diagnostic and therapeutic opportunities in a strictly equine, referral environment.

Job Requirements: DVM/VMD or equivalent, CV, license to practice in Canada
