

Come join our team at the Beausejour Animal Hospital. We are looking to hire a companion animal veterinarian to grow our expanding practice. New grads are welcomed and encouraged to apply. We have a wonderful team of recently graduated veterinarians who still remember what it's like to be new, and can provide excellent mentorship. Our practice focuses on a team work approach to patient care, and we often work up our cases with numerous practitioners.

Our clinic provides an extremely positive atmosphere and excellent support staff. Our goal is to provide a positive and rewarding experience for all patients and clients. We strive to offer all of our clients the best practice medicine and surgery.

Our practice consists of fifty percent small animal and fifty percent large animal. We are fully equipped with in-house lab, digital radiology, digital dental radiology, dentistry equipment, tonovet, and all other necessary equipment. The position is strictly a companion animal. The position offers membership dues, health benefits, large CE allowance and pension plan.

Beausejour is an ideal place to live and raise a family. We are located half way between Winnipeg and the Whiteshell Provincial Park. Our area is ideal for anyone who enjoys outdoor living, cottage life, and fishing while still having the city close by. There is a very low cost of living in the area, so your salary goes a lot farther than most places. Our town has an extremely active atmosphere with many recreational sports leagues of all types.

Please contact Dr. Eric Maguet for more information at 204-268-2177. Resumes can be emailed to em@beausejourvet.ca

Are you looking for a wonderful place where if you don't do the prevention, the diseases actually happen? If yes, then we have a job for you. Come get your fill of clinical Lyme, Blasto, heartworm, rabies, parvo, and distemper at the Beausejour animal Hospital. Our close proximity to the edge of civilization grants us immediate access to the reservoirs of these glorious diseases we love to treat most. It also makes us close to the cabin.
