Calling all Veterinary Students – Summer 2021 Internship Opportunity!

Veterinary Emergency Urgent Care and Referral Clinic of York Region is located in Newmarket, Ontario and is accepting applications for our 2021 Summer Veterinary Internship positions.

This is our second year providing this great opportunity to DVM students and encourage you to ask your colleagues about their experience here in summer 2020. We are looking to provide this Internship to DVM Students in 2nd year and above.

We are a fully equipped 24/7 emergency and urgent care facility. Some of the diagnostic capabilities we offer are: digital x-ray, Abdominal and Cardiac Ultrasound, Endoscopy, Computed Tomography and Stem Cell – all imaging is assessed by a board certified radiologist (off site). We provide emergency surgery services as well as some orthopedic and specialty surgeries as well.

This will be a chance to apply your knowledge within an emergency setting and have first-hand experience in working closely with an array of Veterinary professionals. The veterinary internship program at VEC York Region will provide you with an insight to emergency medicine that will help you decide your career path post-graduation.

As a member of our family-oriented team, you will develop both practical and professional skills by working closely with our DVMs, Assistants and Registered Veterinary Technicians.

As a part of this internship you will have plenty of opportunity to put your skills to use by:

- Intaking patients and collecting a complete medical history
- Triage incoming emergencies
- Providing treatments and nursing care to in hospital patients
- Creating and explaining detailed discharge summaries to hospitalized patients going home
- Discussing/tailoring treatment plans with the attending DVM for hospitalized/incoming patients as well as explaining the understanding the reasons for said treatments
- Assisting DVMs and RVTs in advanced diagnostics/procedures
- Patient handling and restraint
- Assisting with laboratory and imaging diagnostics
- General clinic cleanliness/asepsis
- Weekly rounds with the Clinic Director to discuss interesting/complicated cases from the week prior

Requirements:

- Applicants must be currently enrolled in a recognized DVM program
- Must be able to lift/carry ~40 lbs.
- Must have fantastic client service skills
- Must work effectively independently and as a team player
- Ability to remain calm and efficient in stressful situations
- Must have Initiative in carrying out assignments independently
- Strong desire to learn and try new things

This is a paid position and salary to be discussed

If you are interested in a position with The Veterinary Emergency Urgent Care and Referral Clinic of York Region please send a cover letter and resume to Dr. Malik (Clinic Director) at infovecer@rogers.com ATT: Dr. Malik / Jessica Murray
